employment, recreation or other purposes, situated within the City and abutting on any street, alley, or right-of-way in which there is located or may be in the future located a public sanitary or combined sewer of the City are hereby required, at their own expense to install suitable toilet facilities therein, and to connect such facilities directly to the public sewer in accordance with the provisions of this Chapter, provided that said public sewer is within one hundred (100) feet of the nearest property line of said premises. The property owner shall only be responsible for installation to the existing property line. Material used shall be compatible with commonly accepted materials used by the City for connection to the sewer main.

§2.305 Private Sewer System. Where a public sanitary sewer or combined sewer is not available under the provisions of Section 2.304, the building sewer shall be connected with a private disposal system complying with the provisions of this Code.

§2.306 Permit. No septic tanks shall be constructed or installed within the City unless the plans for the installation are approved by the City Administrator as conforming to the regulations prescribed and a permit issued by the City Clerk. The fee for such permit shall be as prescribed by Council resolution.

§2.307 Inspection. The City Administrator or his designee of the City shall have authority to require that ample notice be given to the City Administrator or his designee to permit inspection of the installation prior to back-filling, to regulate the use, operation and maintenance of any and all septic tanks in said City or to order the tanks to be cleaned, repaired, or reconstructed or further use discontinued when, in his judgment, the use, operation or maintenance of any septic tank shall be unhealthy or harmful.

§2.318 Sewer Connection.

(1) A separate and independent building sewer shall be provided for every building; except where one building stands at the rear of another or an interior (lot) and no private sewer is available or can be constructed to the rear building through an adjoining alley, yard or driveway, the building sewer from the front building may be extended to the rear building.

(2) Old building sewers may be used in connection with new sewer line if, in the opinion of the City Administrator, this connection meets all requirements of this article.

(3) The building sewer shall be constructed of vitrified clay sewer pipe or cast iron soil pipe or plastic sewer pipe, as approved by the Administrator. The City reserves the right to specify and require the encasement of any sewer pipe with concrete, or the installation of the sewer pipe in concrete cradle if foundation and construction are such as to warrant such protection in the opinion of the Administrator.

(4) The size and slope of the building sewer shall be subject to approval by the Administrator, but in no event shall the diameter be less than four (4) inches. The slope of such four (4) inch pipe shall be not less than one-quarter (1/4) inch per foot, unless otherwise permitted. No building sewer shall be laid parallel to or within three (3) feet of any bearing wall; which might thereby be weakened. The depth shall be sufficient to afford protection from frost. The building sewer shall be laid at uniform grade. The line shall be straight or laid with properly curved pipe and fittings. Changes in direction greater than forty-five (45) degrees shall be provided with cleanouts accessible for cleaning.

(6) In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by artificial means approved by the Administrator, and discharge to the building sewer.

(7) All joints and connections shall be made gas tight and water tight. All joints shall be approved by the Administrator, and discharge to the building sewer.
(8) No sewer connection will be permitted unless there is capacity available in all downstream sewers, lift stations, force mains and the sewage treatment plant, including capacity for treatment of BOD and suspended solids.

(9) All newly constructed building sewers shall have a properly sized clean-out at the head of said sewer that is accessible at all times. This clean-out shall allow access of sewer cleaning equipment of a size equivalent to the size of the building sewer.

(10) All sewers shall be constructed in accordance with the latest editions of the "Ten State Standards".

§2.319 Storm Water. No person shall discharge or cause to be discharged any storm water, surface water, ground water, roof run-off, subsurface drainage, cooling water or unpolluted industrial process water to any sanitary sewer.

§2.320 Storm Sewers. Storm sewers and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as combined sewers or storm sewers or to an approved natural outlet. Industrial cooling water or unpolluted process waters may be discharged, upon approval of the City Council, to a storm sewer, combined sewer or approved natural outlet.

(a) If it is determined that storm water is being discharged into a sanitary sewer, the property owner will be notified by mail and given 45 days to correct. If separation of storm sewer and sanitary sewer is not made, the property owner will be fined $10.00 per day until separation is made.

(8) Any wastewater containing toxic pollutants in sufficient quantity, either singly or by interaction with other pollutants, to injure or interfere with any wastewater treatment process constitute a hazard to humans or animals, create a toxic effect in the receiving waters of the POTW, or to exceed the
limitation set forth in Categorical Pretreatment Standard. A toxic pollutant shall include but not be limited to any pollutant identified pursuant to Section 307(a) of the Act.

(9) Any noxious or malodorous liquids, gases or solids which either singly or by interaction with other wastes are sufficient to create public nuisance or hazard to life or are sufficient to prevent entry into the sewers for maintenance and repair.

(10) Any waters or wastes containing heavy metals including but not limited to the following: cadmium, chromium, copper, lead, mercury, nickel, zinc, selenium, molybdenum, arsenic, silver, or toxic substances such as: cyanide, PCB, or other organics in the families of halogenated hydrocarbons, aromatic hydrocarbons, phenols, or phthalate esters.

(11) Any pollutant, including oxygen demanding pollutants (BOD, etc.) released at a flow rate and/or pollutant concentration which a user knows or has reason to know will cause interference to the POTW. (a) Reject the wastes;

(b) Require pretreatment to the level defined as "Normal Domestic Sewage".

(c) Require control over the quantities and rates of discharge.

(d) Require payment to cover the added cost of handling and treating wastes 'not covered by existing taxes, sewer charges.

(e) Require new industrial customers or industries with significant changes in strength or flow to submit prior information to the City concerning the proposed flows.

Plans, specifications and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for approval of the City, and no construction of such facilities shall be commenced until said approval is obtained.

Any sewage works user who has a discharge which exceeds these limits will be considered a significant Discharger and as such will be subject to regulations in Article II, Chapter 23, Industrial Pretreatment and Monitoring, provided such acceptance of waste is allowed by the City Council as set forth in Section 2.325 of this Chapter.

§2.322 Interceptors. Grease, oil and sand interceptors shall be provided when in the opinion of the City Council, or its designated representative, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts or any inflammable wastes, sand or other harmful ingredients, except that such interceptors shall be a type and capacity approved by the City Council or its designated representative, and shall be located so as to be readily accessible for cleaning and inspection.

Grease and oil and sand interceptors shall be constructed of impervious materials capable of withstanding abrupt and extreme changes in temperature. They shall be substantially constructed, water tight and equipped with easily removable covers, which, when bolted in place, shall be gas tight and water tight.

§2.323 Maintenance. Where installed, all grease, oil and sand interceptors shall be maintained by the owner at his expense, in continuously efficient operation at all times.

§2.324 Measurements and Tests. All Measurements, tests and analyses of the characteristics of waters and wastes to which reference is made in Sections 2.321 and 2.322 shall be determined in accordance with "Standard Methods for the Examination of Water and Sewage", as published by the American Public Health Association or with procedures established by the U.S. EPA and contained in 40 CFR, part 136, as amended. Such tests as are herein specified, shall be determined upon suitable samples taken at the control manhole provided for in Article II, Chapter 23. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest down street manhole in the public sewer to the point at which the building sewer is connected or where designated.

§2.325 Wastewater Contribution permits. No statement contained in this Chapter shall be construed as preventing
any special agreement or arrangement between the City and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment. Such wastes, if accepted, will be charged a surcharge based on the amount of BOD, Suspended Solids, Flow, Phosphorous, or other characteristic not consistent with this Chapter. Only that portion of the discharge which is in excess of the limits established will be subject to surcharge. Such agreements will be by permit on a cause by case basis. Surcharges will reflect the cost of the additional expense involved in the operation, maintenance and capital improvements required to effectively treat the unusual or extra strength waste.

§2.330 Liability for Damages. Any person violating any of the provisions of this Chapter shall become liable to the City for any expense, loss or damage occasioned the City by reason of such violation.

ARTICLE II

Industrial Pretreatment and Monitoring

§2.350 Purpose and Policy. This article sets forth uniform requirements for direct and indirect contributors into the wastewater collection and treatment system for the City of Beaverton and enables the City to comply with all applicable State and Federal laws required by the Clean Water Act of 1977 and the General Pretreatment Regulations (40 CFR, Part 403).
The objectives of this Article are:

(a) to prevent the introduction of pollutants into the City wastewater system which interfere with the operation of the system or contaminate the resulting sludge;

(b) to prevent the introduction of pollutants into the municipal wastewater system which will pass through the system, inadequately treated, into receiving waters or the atmosphere or otherwise be incompatible with the system;

(c) to improve the opportunity to recycle and reclaim wastewaters and sludges from the system; and

(d) to provide for equitable distribution of the cost of the municipal wastewater system.

This Article provides for the regulation of direct and indirect contributors to the municipal wastewater system through the issuance of permits to certain non-domestic users and through enforcement of general requirements for the other users, authorizes monitoring and enforcement activities, requires user reporting, assumes that existing customer's capacity will not be preempted, and provides for the setting of fees for the equitable distribution of costs resulting from the program established herein.

This Article shall apply to the City of Beaverton and to persons outside the City who are, by contract or agreement with the City, Users of the City POTW. This Article is a supplement to Chapter 23 Sewer Ordinance, as amended. Except as otherwise provided herein, the Superintendent of the City POTW shall administer, implement and enforce the provisions of this Ordinance.

§2.351 Limitations on Wastewater Strength.

(1) Federal Categorical Pretreatment Standards. Upon the promulgation of the Federal Categorical Pretreatment Standards for a particular industrial sub-category, the Federal Pretreatment Standard, if more stringent than limitations imposed under this Ordinance for sources in that sub-category, shall immediately supersede the limitations imposed under this Ordinance. The Superintendent shall notify all affected users of the applicable reporting requirements under 40 CFR, Section 403.12.

(2) Modification of Federal Categorical Pretreatment Standards. Where the City's wastewater treatment system achieves consistent removal of pollutants limited by Federal Pretreatment Standards, the City may apply to the approval Authority for modification of specific limits in the Federal Pretreatment...
"Consistent Removal" shall mean reduction in the amount of a pollutant or alteration of the nature of the pollutant by the wastewater treatment system to a less toxic or harmless state in the effluent which is achieved by the system ninety-five percent (95%) of the samples taken when measured according to the procedures set forth in Section 403.7(c)(2) of (Title 40 of the Code of Federal Regulations, Part 403) "General Pretreatment Regulations for Existing and new Sources of Pollution" promulgated pursuant to the Act. The City may then modify pollutant discharge limits in the Federal Pretreatment Standards if the requirements contained in 40 CFR, Part 403, Section 403.7, are fulfilled and prior approval from the Approval Authority is obtained.

(3) **State Requirements.** State requirements and limitations on discharges to the POTW shall be met by all Dischargers which are subject to such standards in any instance in which they are more stringent than federal requirements and limitations or those in this or any other applicable ordinance.

(4) **Right of Revision.** The City reserves the right to amend this Ordinance to provide for more stringent limitations or requirements on discharges to the POTW where deemed necessary to comply with the objectives set forth in Section 2.350 of this Article.

(5) **Excessive Discharge.** No User shall ever increase the use of process water or, in any way, attempt to dilute a discharge as a partial or complete substitute for adequate treatment to achieve compliance with the limitations contained in the Federal Categorical Pretreatment Standards, or in any other pollutant-specific limitation developed by the City or State.

(6) **Specific Pollutant Limitations.** No person shall discharge wastewater containing in excess of:

(7) The City may impose mass limitations on Dischargers which are using dilution to meet the Pretreatment Standards or Requirements of this Ordinance, or in other cases where the imposition of mass limitations is deemed appropriate by the City.

§2.352 Accidental Discharges. Each User shall provide protection from accidental or SLUG discharges of prohibited materials or other substances regulated by this Ordinance. Facilities to prevent accidental discharge of prohibited materials shall be provided and maintained at the owner or user's own cost and expense. Detailed plans showing facilities and operating procedures to provide this protection shall be submitted to the City for review, and shall be approved by the City before construction of the facility. All existing users shall complete such a plan within 180 days of enactment of this Ordinance. No user who commences contribution to the POTW after the effective date of this ordinance shall be permitted to introduce pollutants into the system until accident SLUG discharge procedures have been approved by the City. Review and approval of such plans and operating procedures shall not relieve the industrial user from the responsibility to modify the user's facility as necessary to meet the requirements of this ordinance. In the case of an accidental or SLUG discharge, it is the responsibility of the user to immediately telephone and notify the POTW of the incident. The notification shall include location of discharge, type of waste, concentration and volume, and corrective actions.

§2.353 Upset. If an accidental discharge is caused by the "upset" of an industrial User's treatment facility, the industrial User must notify the POTW within 24 hours of the upset. Written notification must be provided as described in section 2.355. An Industrial user who wishes to establish the affirmative defense of Upset shall demonstrate that:

An upset occurred and the Industrial User can identify the cause(s) of the upset;

The facility was at the time being operated in a prudent and workmanlike manner and in compliance with applicable operation and maintenance procedures;

The Industrial user has submitted the appropriate notifications to the POTW as described in this and section 2.355.

§2.354 Bypass. Bypasses are prohibited and may result in enforcement action against the Industrial Discharger unless: Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;
There was no feasible alternative to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes or maintenance during normal periods of down time;

The Industrial User submitted the proper notices to the POTW. An unanticipated Bypass requires the Industrial User to notify the POTW within 24 hours after becoming aware of the Bypass. A written submission shall also be provided according to the conditions of §2.355.

§2.355 Written Notice. Within five (5) days following an accidental discharge, operational upset or Bypass; the User shall submit to the Superintendent of the POTW a detailed written report describing the cause of the discharge, its duration including exact dates and times when it was corrected and the measures to be taken by the user to prevent similar future occurrences. Such notification shall not relieve the user of any expense, loss, damage, or other liability which may be incurred as a result of damage to the POTW, fish kills, or any other liability which may be imposed by this article or other applicable law. If a substance is discharged to the POTW, which if otherwise disposed of would be a hazardous waste under 40 CFR Part 261, then Notification must include the name of the hazardous waste, the EPA hazardous waste number and the type of discharge (continuous, batch, etc.). The User must also notify the EPA Regional Waste Management Division Director and State hazardous waste authorities in writing.

§2.356 Notice to Employees. A notice shall be permanently posted on the User's bulletin board or other prominent place advising employees who to call in the event of a dangerous SLUG discharge. Employers shall insure that all employees who may cause or suffer such a dangerous SLUG discharge to occur are advised of the emergency notification procedure.

§2.357 Purpose. It is the purpose of this section to provide for the recovery of costs from Users of the City's Wastewater disposal system for the implementation of the program established herein. The applicable charges or fees shall be set forth in the City's schedule of Charges and Fees.

(1) Charges and Fees. The City may adopt charges and fees which may include:

(a) fees for reimbursement of costs of setting up and operating the City's Pretreatment Program;

(b) fees for monitoring, inspections and surveillance procedures;

(c) fees for reviewing accidental discharge procedures and construction;

(d) fees for permit applications;
(e) fees for filing appeals;

Samples for other pollutants shall be a twenty-four (24) hour composite flow proportional unless prior approval of waiver for flow proportional sampling is obtained from POTW. A minimum of one representative sample taken immediately downstream of the regulated process(es) is required. All sampling and analysis shall be performed in accordance with 40 CFR part 136 or as approved by the Superintendent. The baseline report shall indicate the time, date, place and name of the person collecting sample, methods of analysis and shall certify it is representative of normal work cycles and expected pollutant discharges. In addition, this report shall include a record of all daily flows which during the reporting period exceeded the average daily flow reported in paragraph (b) of 2.363. If an Industrial User monitors any pollutant more frequently than required, the results shall be included in the report. At the discretion of the Superintendent and in consideration of such factors as local high or low flow rates, holidays, budget cycles, etc., the Superintendent may agree to alter the months during which the above reports are to be submitted. Periodic compliance reports shall be reviewed and Signed by an authorized representative of the Industrial User.

(b) The Superintendent may impose mass limitations on Users which are using dilution to meet applicable Pretreatment Standards or Requirements, or in other cases where the imposition of mass limitations are appropriate. In such cases, the report required by subparagraph (a) of this paragraph shall indicate the mass of pollutants regulated by Pretreatment Standards in the effluent of the User. These reports' shall contain the results of sampling and analysis of the discharge, including the flow and the nature and concentration, or production and mass where requested by the Superintendent, of Pollutants contained therein which are limited by the applicable Pretreatment Standards. The frequency of monitoring shall be prescribed in the applicable Pretreatment Standard. The User shall also repeat sampling and analysis and submit the results of the repeat analyses to the POTW within thirty (30) days after becoming aware of the violation.

§2.367 **Monitoring Facilities.** The City shall require to be provided and operated at the User's own expense, monitoring facilities to allow inspection, sampling, and flow measurement of the building sewer and/or internal drainage systems. The monitoring facility should normally be situated on the User's premises, but the City may, when such a location would be impractical or cause undue hardship on the User, allow the facility to be constructed in the public street or sidewalk area and located so that it will not be obstructed by landscaping or parked vehicles.

There shall be ample room in or near such sampling manhole of facility to allow accurate sampling and preparation of samples for analysis. The facility, sampling, and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the User.

Whether constructed on public or private property, the sampling and monitoring facilities shall be provided in accordance with the City's requirements and all applicable local construction standards and specification. Detailed plans showing the pretreatment facilities and operating procedures shall be submitted to the City for review, and shall be acceptable to the City before construction of the facility. The review of such plans and operating procedures will in no way relieve the user from the responsibility of modifying the facility as necessary to produce an effluent acceptable to the City under the provisions of this Ordinance. Any subsequent changes in the pretreatment facilities or methods of operation shall be reported to and be acceptable to the City prior to the user's initiation of the changes.

The City shall annually publish in a newspaper of general circulation within the City a list of the Users which were not in compliance with any Pretreatment Requirements or Standards at least once during the twelve previous months. wastewater treatment service and/or a Wastewater Contribution Permit when such suspension is necessary, in the opinion of the City, in order to stop an actual or threatened discharge which presents or may present an imminent or substantial endangerment to the health or welfare of persons, to the environment, causes interference to the POTW or causes the City to violate any condition of its NPDES Permit.

Any person notified of a suspension of the wastewater treatment service and/or the Wastewater Contribution Permit shall immediately stop or eliminate the contribution. In the event of a failure of the person to comply voluntarily with the suspension order, the City shall take such steps as deemed necessary including immediate severance of the sewer connection, to prevent or minimize damage to the POTW system or endangerment to any individuals. The City shall reinstate the Wastewater Contribution Permit and/or the wastewater treatment service upon proof of the elimination of the non-complying discharge. (A) CONSTRUCTION ACCOUNT. The proceeds of the Bonds hereby authorized, and no other funds, shall be deposited in the WATER SUPPLY AND SEWAGE DISPOSAL SYSTEM JUNIOR LIEN SERIES 2007 CONSTRUCTION FUND ACCOUNT (the "Construction Account"), in the Depository Bank. Moneys in the Construction Account shall be used solely for the purposes for which the Bonds are issued. If monies other than proceeds of the Bonds are deposited into the Construction Account (including grant funds from any source, if any), then the monies constituting proceeds of the Bonds shall be accounted separately from such other funds or monies.

Any unexpended balance of the proceeds of sale of the Bonds remaining after completion of the Project herein authorized may in the discretion of the City be used for further improvements, enlargements and extensions to the System, provided that at the time of such expenditure such use be approved by the Department of Treasury (if such approval is then required by law). Any remaining balance after such expenditure shall be paid into the Junior Lien Bond and Interest Redemption Account and used as soon as is practical for the prepayment of installments of the Bonds or for the purchase of installments to the Bonds at not more than the fair market value thereof. Following completion of the Project, any unexpended balance of the Bonds shall be invested at a yield not to exceed the yield on the Bonds.
After completion of the Project and disposition of remaining proceeds, if any, of the Bonds pursuant to the provisions of this Section, the Construction Account shall be closed.

(B) WATER SUPPLY AND SEWAGE DISPOSAL SYSTEM RECEIVING FUND. Upon and after the effective date of this Ordinance, the Revenues of the System shall continue to be set aside into the Water Supply and Sewage Disposal System Receiving Fund created in the Outstanding Ordinances (the "Receiving Account"), and moneys so deposited therein shall be transferred, expended and used only in the manner and order as follows:

(1) Operation and Maintenance Fund. There is hereby continued a separate fund designated as the OPERATION AND MAINTENANCE FUND (the "Operation and Maintenance Account"). Revenues shall be transferred from the Receiving Account to the Operation and Maintenance Account to pay the reasonable and necessary current expenses of administration and operating and maintaining the System for the ensuing quarter as described in the Outstanding Ordinances.

(2) Series II and Series III Debt Retirement Funds. After the transfer required in (1) above, Revenues shall be transferred each quarter from the Receiving Account and deposited into the debt service accounts established by Ordinance No. 115 and Ordinance No. 123 for the payment of Series II Bonds and the Series HI Bonds in accordance with the requirements of Ordinance No. 115 and Ordinance No. 123.

(3) Water Supply and Sewage Disposal System Revenue Bonds-Junior Lien Bond and Interest Redemption Account. The Series IV Junior Lien Revenue Bond - Bond and Interest Redemption Fund of the City is hereby re-designated as the JUNIOR LIEN BOND AND INTEREST REDEMPTION ACCOUNT (the "Junior Lien Bond and Interest Redemption Account") and the moneys on deposit therein from time to time used solely for the purpose of paying the principal of and interest on the Junior Lien Bonds. After the transfers required in (1) and (2) above, in addition to the transfer requirements of Ordinance No. 141, Revenues shall be transferred at the time of delivery of the first installment of the Series 2007 Bond and on the first day of each quarter of the Fiscal Year thereafter from the Receiving Account, before any other expenditures or transfer therefrom, and deposited in the Junior Lien Bond and Interest Redemption Account for payment of principal of and interest on the Series 2007 Bonds and to fund the Junior Lien Bond Reserve Account as required by this Ordinance.

Upon any delivery of an installment of the Series 2007 Bonds there shall be set aside at the time of delivery and on the first day of each quarter of the Fiscal Year thereafter to the next interest payment date an amount equal to that fraction of the amount of interest due on the next interest payment date on said installment so delivered, the numerator of which is 1 and the denominator of which is the number of full and partial Fiscal Year quarters from the date of said delivery to the next interest payment date. There shall be set aside each Fiscal Year quarter on or after October 1, 2007, an amount not less than 1/2 of the amount of interest due on the next interest payment date on all outstanding installments of the Series 2007 Bonds not delivered during the then current interest payment period.

Upon any delivery of an installment of the Series 2007 Bonds there shall be set aside at the time of such delivery and on the first day of each quarter of the Fiscal Year thereafter to the
next principal payment date an amount equal to that fraction of the amount of principal due on the next principal payment date on said installment so delivered, the numerator of which is 1 and the denominator of which is the number of full and partial Fiscal Year quarters from the date of said delivery to the next principal payment date. There shall also be set aside each Fiscal Year quarter on or after the first day of the Fiscal Year quarter after payment of the first principal installment of the Series 2007 Bonds, an amount not less than 1/4 of the amount of principal due on the next principal payment date. Except as hereinafter provided and as required by Ordinance No. 141, no further deposits shall be made into the Junior Lien Bond and Interest Redemption Account (excluding the Junior Lien Bond Reserve Account) once the aforesaid sums have been deposited therein. Any amount on deposit in the Junior Lien Bond and Interest Redemption Account (excluding the Junior Lien Bond Reserve Account) in excess of (a.) the amount needed for payment of principal installments of the Series 2007 Bonds for the then current principal payment period, plus (b.) interest on the Series 2007 Bonds for the then current interest payment period, shall be used by the City for redemption of principal installments of the Series 2007 Bonds in the manner set forth in Section 10 hereof, if such use is impracticable, shall be deposited in or credited to the Receiving Account.

If for any reason there is a failure to make such quarterly deposit in the amounts required, then the entire amount of the deficiency shall be set aside and deposited in the Junior Lien Bond and Interest Redemption Account out of the Revenues first received thereafter which are not required by the Outstanding Ordinances and this Ordinance to be deposited in the Operation and Maintenance Account or in the Series II or Series III debt retirement account, or in the Junior Lien Bond and Interest Redemption Account, which amount shall be in addition to the regular quarterly deposit required during such succeeding quarter or quarters.

The Series IV Junior Lien Bond Reserve Account created by Ordinance No. 141 is hereby re-designated as the JUNIOR LIEN BOND RESERVE ACCOUNT (the "Junior Lien Bond Reserve Account"), in addition to the requirements of Ordinance No. 141, transfers shall be made to the Junior Lien Bond Reserve Account shall as follows: Commencing October 1, 2007, there shall be withdrawn from the Receiving Account at the beginning of each Fiscal Year quarter and set aside in and transferred to the Junior Lien Bond Reserve Account, after provision has been made for the Operation and Maintenance Account and the current requirements of the Junior Lien Bond and Interest Redemption Account, the sum of at least $1,625 per quarter ($6,500 annually for the Bond) until there is accumulated in the Junior Lien Bond Reserve Account the lesser of the sum of $65,000 or the Reserve Amount. Except as hereinafter provided, no further deposits shall be made into the Junior Lien Bond Reserve Account for the purpose of providing additional reserve funds for the Series 2007 Bonds once the lesser of the sum of $65,000 or the Reserve Amount has been deposited therein as herein provided. The moneys in the Junior Lien Bond Reserve Account shall be used solely for the payment of the principal installments of and interest on the Series 2007 Bonds as to which there would otherwise be default; provided however, that in the event the amount on deposit in the Junior Lien Bond Reserve Account exceeds the Reserve Amount, the moneys in excess of the Reserve Amount shall be used to pay principal installment of and interest on the Series 2007 Bonds on the next payment date.
If at any time it shall be necessary to use moneys in the Junior Lien Bond Reserve
Account for such payment, then the moneys so used shall be replaced from the Net Revenues first received thereafter which are not required by this Ordinance and the Outstanding Ordinances to be used for operation and maintenance or for current principal and interest requirements for the Series 2007 Bonds and the Outstanding Bonds.

Except as may be required by Ordinance No. 141, no further payments need be made into the Junior Lien Bond and Interest Redemption Account after enough of the principal installments of the Series 2007 Bonds have been retired so that the amount then held in the Junior Lien Bond and Interest Redemption Account (including the Junior Lien Bond Reserve Account), is equal to the entire amount of principal and interest which will be payable at the time of maturity of all the principal installments of the Series 2007 Bonds then remaining outstanding.

The moneys in the Junior Lien Bond and Interest Redemption Account and the Junior Lien Bond Reserve Account shall be invested in accordance with the Outstanding Ordinances and Section 13 of this Ordinance, and profit realized or income earned on such investment shall be used or transferred as provided in the Outstanding Ordinances and Section 13 of this Ordinance.

(1) Repair, Replacement and Improvement Account. The Replacement Fund continued by Ordinance No. 141 is hereby re-designated as the REPAIR, REPLACEMENT AND IMPROVEMENT ACCOUNT (the "RRI Account"). After the transfers required in (1), (2) and (3) above, in addition to the transfer requirements of Ordinance No. 141, revenues shall be transferred each Fiscal Year quarter from the Receiving Account and deposited in the RRI Account in an amount not less than $3,300, less the amount, if any, deposited in the Junior Lien Bond Reserve Account at the beginning of the same Fiscal Year quarter. Moneys in the RRI Account shall be used and disbursed only for the purpose of paying the cost of (a) repairing any damage to and emergency maintenance of the System, (b) repairing or replacing obsolete, deteriorating, deteriorated or worn out portions of the System, (c) acquiring and constructing extensions and improvements to the System and (d) when necessary, for the purpose of making payments of principal and interest on the Series 2007 Bonds. If the amount in the Junior Lien Bond and Interest Redemption Account and the Junior Lien Bond Reserve Account is not sufficient to pay the principal of and interest on the Series 2007 Bonds when due, the moneys in the RRI Account shall be transferred to the Junior Lien Bond and Interest Redemption Account and used for that purpose. Moneys in the RRI Account may be invested in accordance with Section 13 of this Ordinance.

(2) REVERSE FLOW OF FUNDS; SURPLUS MONEY. In the event the moneys in the Receiving Account are insufficient to provide for the current requirements of the Operation and Maintenance Account, the Series II and Series III debt retirement accounts, the Junior Lien Bond and Interest Redemption Account (including the Junior Lien Bond Reserve Account), or the RRI Account, any moneys and/or securities in the funds of the System described by this Ordinance and the Outstanding Ordinances shall be transferred, first, to the Operation and Maintenance Account, second, the Series II debt retirement account as required by Ordinance No. 115, third, to the Series III debt retirement account as provided in Ordinance No. 123; fourth the Junior Lien Bond and Interest Redemption Account, and fifth, the RRI Account.
All moneys remaining in the Receiving Account at the end of any Fiscal Year after satisfying the above requirements for the deposit of moneys into the Operation and Maintenance Account, the Junior Lien Bond and Interest Redemption Account, and the RRI Account may be transferred to the Junior Lien Bond and Interest Redemption Account and used to call Series 2007 Bonds or portions thereof for redemption, or at the option of the City, transferred to the RRI Account and used for the purpose for which the funds were established; provided, however, that if there should be a deficit in the Operation and Maintenance Account, the Junior Lien Bond and Interest Redemption Account, the Junior Lien Bond Reserve Account, or the RRI Account, on account of defaults in setting aside therein the amounts hereinbefore required, then transfers shall be made from such moneys remaining in the Receiving Account to such funds in the priority and order named in this Section, to the extent of such deficits.

Section 13. Investments. Moneys in the funds and accounts established herein and moneys derived from the proceeds of sale of the Bonds may be invested by the legislative body of the City on behalf of the City in the obligations and instruments permitted for investment by Section 24 of Act 94, as the same may be amended from time to time; provided, however, that as long as the Bonds are held by the Government, then the investment may be limited to the obligations and instruments authorized by the Government. Investment of moneys in the Junior Lien Bond and Interest Redemption Account being accumulated for payment on the next maturing principal or interest payment on the Bonds shall be limited to obligations and instruments bearing maturity dates prior to the date of the next maturing principal or interest payment on the Bonds. Investment of moneys in the Junior Lien Bond Reserve Account shall be limited to Government obligations and instruments bearing maturity dates or subject to redemption, at the option of the holder thereof, not later than five (5) years from the date of the investment. In the event investments are made, any securities representing the same shall be kept on deposit with the Depository Bank. Interest income earned on investment of funds in the Receiving Account, the Operation and Maintenance Account and the Junior Lien Bond and Interest Redemption Account (except the Junior Lien Bond Reserve Account), shall be deposited in or credited to the Receiving Account. Interest income earned on the investment of funds in the Junior Lien Bond Reserve Account shall be deposited in the Junior Lien Bond and Interest Redemption Account.

Section 14. Rates and Charges. Rates and charges for the services of the System have been fixed by ordinance in an amount sufficient to pay the costs of operating, maintaining and administering the System, to pay the principal of and interest on the Bonds and the Outstanding Bonds and to meet the requirements for repair, replacement, reconstruction and improvement and all other requirements provided herein, and otherwise comply with the covenants herein provided. The City hereby covenants and agrees to fix and maintain at all times while any of the Bonds shall be outstanding such rates for service furnished by the System as shall be sufficient to provide for the foregoing expenses, requirements and covenants, and to create a Junior Lien Bond and Interest Redemption Account (including a bond reserve account) for all such Bonds. The rates and charges for all services and facilities rendered by the System shall be reasonable and just, taking into consideration the cost and value of the System and the cost of maintaining, repairing, and operating the same and the amounts necessary for the retirement of all of the Bonds and the Outstanding Bonds, and accruing interest on all of the Bonds and the Outstanding
Bonds, and there shall be charged such rates and charges as shall be adequate to meet the
requirements of this Section and Section 12 of this Ordinance.

Section 15. No Free Service. No free service shall be furnished by the System to any individual, firm or corporation, public or private or to any public agency or instrumentality.

Section 16. Covenants. The City covenants and agrees, so long as any of the Bonds hereby authorized remain unpaid, as follows:

(a) It will comply with applicable State laws and regulations and continually operate and maintain the System in good condition.

(b)(i) It will maintain complete books and records relating to the operation and financial affairs of the System. If the Government is the holder of any of the Bonds, the Government shall have the right to inspect the System and the records, accounts, and data relating thereto at all reasonable times.

(ii) It will file with the Department of Treasury and the Government each year, as soon as is possible, not later than one hundred eighty (180) days after the close of the Fiscal Year, a report, on forms prepared by the Department of Treasury, made in accordance with the accounting method of the City, completely setting forth the financial operation of such Fiscal Year.

(iii) It will cause an annual audit of such books of record and account for the preceding Fiscal Year to be made each year by a recognized independent certified public accountant, and will cause such accountant to mail a copy of such audit to the Government, without request of the Government, or to the manager of the syndicate or account purchasing the Bonds. Such audit shall be completed and so made available not later than one hundred fifty (150) days after the close of each Fiscal Year, and said audit may, at the option of the City, be used in lieu of the statement on forms prepared by the Department of Treasury and all purposes for which said forms are required to be used by this Ordinance.

(a) It will maintain and carry, for the benefit of the holders of the Bonds, insurance on all physical properties of the System, of the kinds and in the amounts normally carried by municipalities engaged in the operation of similar systems. The amount of said insurance shall be approved by the Government. All moneys received for losses under any such insurance policies shall be applied solely to the replacement and restoration of the property damaged or destroyed, and to the extent not so used, shall be used for the purpose of calling Bonds.

(b) It will not borrow any money from any source or enter into any contract or agreement to incur any other liabilities that may in any way be a lien upon the Revenues or otherwise encumber the System so as to impair Revenues therefrom, without obtaining the prior written consent of the Government, nor shall it transfer or use any portion of the Revenues derived in the operation of the System for any purpose not herein specifically authorized.
(a) It will not voluntarily dispose of or transfer its title to the System or any part thereof, including lands and interest in land, sale, mortgage, lease or other encumbrances, without obtaining the prior written consent of the Government.

(b) Any extensions to or improvements of the System shall be made according to sound engineering principles and specifications shall be submitted to the Government for prior review.

(c) To the extent permitted by law, it shall take all actions within its control necessary to maintain the exclusion of the interest on the Bonds from adjusted gross income for general federal income tax purposes under the Internal Revenue Code of 1986, as amended, including but not limited to, actions relating to the rebate of arbitrage earnings, if applicable, and the expenditure and investment of proceeds of the Bonds and moneys deemed to be proceeds of the Bonds.

Section 17. Additional Bonds. The City may issue additional bonds of equal standing with the Bonds for the following purposes and on the following conditions:

(a) To complete construction of the Project according to the plans referred to in Section 2, additional bonds may be issued in the amount necessary therefor.

(b) For the purpose of making reasonable replacement or extension of the System or refunding any outstanding Bonds, additional bonds of equal standing may be issued if:

(i) The augmented net revenues of the System for the Fiscal Year preceding the year in which such additional bonds are to be issued were 120 percent of the average annual debt service requirements on all bonds then outstanding and those proposed to be issued net of any bonds to be refunded by the new issue; or

(ii) The holders of at least 75 percent of the then outstanding Bonds consent to such issue in writing.

For purposes of this Section the term "augmented net revenues" shall mean the Net Revenues of the System for a year, adjusted to reflect the effect of any rate increase placed in effect during that year (but not in effect for the whole year), placed in effect subsequent to the year or scheduled, at the time the new Bonds are authorized, to be placed in effect before principal of and interest on the new Bonds become payable from Revenues of the System, and augmented by any increase in Revenues or decrease in expenses estimated to accrue from the improvements to be acquired from the new Bonds. The adjustments and augmentations provided for in the preceding sentence shall be established by certificate of an independent consulting engineer filed with the Clerk of the City. If new Bonds are issued within 4 months of the end of a Fiscal Year, the determination made in subsection (b)(i) of this Section may be based upon the results of a Fiscal Year ending within 16 months of the date of issuance of the new Bonds.

The funds herein established shall be applied to all additional bonds issued pursuant to
this Section as if said bonds were part of the original bond issue and all Revenue from any such extension or replacement constructed by the proceeds of an additional bond issue shall be paid to the Receiving Account mentioned in this Ordinance.

Except as otherwise specifically provided so long as any of such Bonds herein authorized are outstanding, no additional bonds or other obligations pledging any portion of the Revenues of the System on a parity with the Bonds shall be incurred or issued by the City unless the same shall be junior and subordinate in all respects to the Bonds herein authorized.

Section 18. Ordinance Shall Constiute Contract. The provisions of this Ordinance shall constitute a contract between the City and the bondholders and after the issuance of the Bonds this Ordinance shall not be repealed or amended in any respect which will adversely affect the rights and interests of the holders nor shall the City adopt any law, ordinance or resolution in any way adversely affecting the rights or the holders so long as the Bonds or interest thereon remains unpaid.

Section 19. Refunding of Bonds. If at any time it shall appear to the Government that the City is able to refund upon call for redemption or with consent of the Government the then outstanding Bonds by obtaining a loan for such purposes from responsible cooperative or private credit sources at reasonable rates and terms for loans for similar purposes and periods of time, the City will, upon request of the Government, apply for and accept such loan in sufficient amount to repay the Government, and will take all such actions as may be required in connection with such loans.

Section 20. Default of City. If there shall be default in the Junior Lien Bond and Interest Redemption Account, provisions of this Ordinance or in the payment of principal of or interest on any of the Bonds, upon the filing of a suit by 20 percent of the holders of the Bonds, any court having jurisdiction of the action may appoint a receiver to administer the System on behalf of the City with power to charge and collect rates sufficient to provide for the payment of the Bonds and for the payment of operation, maintenance and administrative expenses and to apply Revenues in accordance with this Ordinance and the laws of the State of Michigan.

The City hereby agrees to transfer to any bona fide receiver or other subsequent operator of the System, pursuant to any valid court order in a proceeding brought to enforce collection or payment of the City's obligations, all contracts and other rights of the City, conditionally, for such time only as such receiver or operation shall operate by authority of the court.

The holders of 20 percent of the Bonds in the event of default may require by mandatory injunction the raising of rates in a reasonable amount.

4. To indemnify the Government for any payments made or losses suffered by the Government on behalf of the Association. Such indemnification shall be payable from the same source of funds pledged to pay the bonds or any other legally permissible source.

5. Section 12. Custodian of Funds; Funds.

(3) Water Supply and Sewage Disposal System Revenue Bonds-Junior Lien Bond and Interest Redemption Account. The Series IV Junior Lien Revenue Bond — Bond and Interest Redemption Fund of the City is hereby re-designated as the JUNIOR LIEN BOND AND INTEREST REDEMPTION ACCOUNT (the "Junior Lien Bond and Interest Redemption Account") and the moneys on deposit therein from time to time used solely for the purpose of paying the principal of and interest on the Junior Lien Bonds. After the transfers required in (1) and (2) above, in addition to the transfer requirements of Ordinance No. 141, Revenues shall be transferred at the time of delivery of the first installment of the Series 2007 Bond and on the first day of each quarter of the Fiscal Year thereafter from the Receiving Account, before any other expenditures or transfer therefrom, and deposited in the Junior Lien Bond and Interest Redemption Account for payment of principal of and interest on the Series 2007 Bonds and to fund the Junior Lien Bond Reserve Account as required by this Ordinance.

Upon any delivery of an installment of the Series 2007 Bonds there shall be set aside at the time of delivery and on the first day of each quarter of the Fiscal Year thereafter to the next interest payment date an amount equal to that fraction of the amount of interest due on the next interest payment date on
said installment so delivered, the numerator of which is 1 and the denominator of which is the number of full and partial Fiscal Year quarters from the date of said delivery to the next interest payment date.
There shall be set aside each Fiscal Year quarter on or after January 1, 2008, an amount not less than 1/2 of the amount of interest due on the next interest payment date on all outstanding installments of the Series 2007 Bonds not delivered during the then current interest payment period.

Upon any delivery of an installment of the Series 2007 Bonds there shall be set aside at the time of such delivery and on the first day of each quarter of the Fiscal Year thereafter to the next principal payment date an amount equal to that fraction of the amount of principal due on the next principal payment date on said installment so delivered, the numerator of which is 1 and the denominator of which is the number of full and partial Fiscal Year quarters from the date of said delivery to the next principal payment date. There shall also be set aside each Fiscal Year quarter on or after the first day of the Fiscal Year quarter after payment of the first principal installment of the Series 2007 Bonds, an amount not less than 1/4 of the amount of principal due on the next principal payment date. Except as hereinafter provided and as required by Ordinance No. 141, no further deposits shall be made into the Junior Lien Bond and Interest Redemption Account (excluding the Junior Lien Bond Reserve Account) once the aforesaid sums have been deposited therein. Any amount on deposit in the Junior Lien Bond and Interest Redemption Account (excluding the Junior Lien Bond Reserve Account) in excess of (a.) the amount needed for payment of principal installments of the Series 2007 Bonds for the then current principal payment period, plus (b.) interest on the Series 2007 Bonds for the then current interest payment period, shall be used by the City for redemption of principal installments of the Series 2007 Bonds in the manner set forth in Section 10 hereof, if such use is impracticable, shall be deposited in or credited to the Receiving Account.

If for any reason there is a failure to make such quarterly deposit in the amounts required, then the entire amount of the deficiency shall be set aside and deposited in the Junior Lien Bond and Interest Redemption Account out of the Revenues first received thereafter which are not required by the Outstanding Ordinances and this Ordinance to be deposited in the Operation and Maintenance Account or in the Series II or Series HI debt retirement account, or in the Junior Lien Bond and Interest Redemption Account, which amount shall be in addition to the regular quarterly deposit required during such succeeding quarter or quarters.

The Series IV Junior Lien Bond Reserve Account created by Ordinance No. 141 is hereby redesignated as the JUNIOR LIEN BOND RESERVE ACCOUNT (the "Junior Lien Bond Reserve Account"). Except as hereinafter provided, no further deposits shall be made into the Junior Lien Bond Reserve Account for the purpose of providing additional reserve funds for the Series 2007 Bonds once the lesser of the sum of $58,000 or the Reserve Amount has been deposited therein as herein provided. The moneys in the Junior Lien Bond Reserve Account shall be used solely for the payment of the principal installments of and interest on the Series 2007 Bonds as to which there would otherwise be
default; provided however, that in the event the amount on deposit in the Junior Lien Bond Reserve Account exceeds the Reserve Amount, the moneys in excess of the Reserve Amount shall be used to pay principal installment of and interest on the Series 2007 Bonds on the next payment date.
If at any time it shall be necessary to use moneys in the Junior Lien Bond Reserve Account for such payment, then the moneys so used shall be replaced from the Net Revenues first received thereafter which are not required by this Ordinance and the Outstanding Ordinances to be used for operation and maintenance or for current principal and interest requirements for the Series 2007 Bonds and the Outstanding Bonds.

Except as may be required by Ordinance No. 141, no further payments need be made into the Junior Lien Bond and Interest Redemption Account after enough of the principal installments of the Series 2007 Bonds have been retired so that the amount then held in the Junior Lien Bond and Interest Redemption Account (including the Junior Lien Bond Reserve Account), is equal to the entire amount of principal and interest which will be payable at the time of maturity of all the principal installments of the Series 2007 Bonds then remaining outstanding.

The moneys in the Junior Lien Bond and Interest Redemption Account and the Junior Lien Bond Reserve Account shall be invested in accordance with the Outstanding Ordinances and Section 13 of this Ordinance, and profit realized or income earned on such investment shall be used or transferred as provided in the Outstanding Ordinances and Section 13 of this Ordinance.

If the amount in the Junior Lien Bond and Interest Redemption Account and the Junior Lien Bond Reserve Account is not sufficient to pay the principal of and interest on the Series 2007 Bonds when due, the moneys in the RRI Account shall be transferred to the Junior Lien Bond and Interest Redemption Account and used for that purpose. Moneys in the RRI Account may be invested in accordance with Section 13 of this Ordinance.

§2.531 Definitions.  The term "private well" as used herein shall mean any well or excavation for purposes of taking artesian water, drilled or dug on any privately owned lands to a depth of more than twelve (12) feet.

§2.532 Permit Required.  No person shall dig or drill a private well upon any lands within the City of Beaverton without having first secured a permit therefore from the City Council nor shall any private well be extended or enlarged without having first secured a permit hereunder.

§2.533 Application Fee.  Any person desiring to dig, drill, extend or enlarge any private well shall make application therefore to the City Council.  Such application shall be in writing and shall contain all pertinent information concerning the size and location of the proposed well or extension thereof with a statement of the purpose or purposes for which water there from will be used.  Such application shall be accompanied by a permit fee in the amount established by resolution of the City Council, which fee shall be returned in the event the permit be not granted.

§2.534 Hearing.  The City Council shall hold such hearing on said application as it may deem necessary, and may grant or deny issuance of a permit.  If a permit is granted, the same shall contain such reasonable terms and conditions as the Council may deem necessary, relative to the depth or size of such private well, and the use and disposal of water taken there from.

§2.535 Regulations.  When any permit is granted for the drilling of any private well, such well shall be drilled in strict conformity and compliance with regulations contained in such permit and such well, both at the time of drilling and subsequent thereto shall be subject to inspection at all reasonable times by the Water Department of the City of Beaverton.

§2.536 Meter.  The City Council may, as a condition precedent to the granting of any permit, require installation on any private well of a meter measuring the amount of water taken there from.  Such meter if so required shall be installed by the City Water Department, and all costs in connection therewith shall be borne by the owner of said premises and shall be an additional charge over and above the permit fee herein provided.

§2.537 Disposition of Waste.  No water from private wells within the City of Beaverton shall be permitted to enter the sewer system of said City unless the same first passes through a meter duly installed and approved by the City Water Department.

§2.538 Sewer Charges.  Water from private wells deposited in the
sewer system of the City of Beaverton shall be subject to the same charges as are provided for sewage treatment of water from the City Water System.

§2.539 Revocation. Any permit granted hereunder shall be revocable at the will of the Council; provided that the Council, prior to revoking such permit, shall give to the owner or operator of such well at least ninety (90) days written notice of its intent to revoke such permit. Such notice shall be deemed sufficient if served on such owner personally or by registered or regular mail and by posting a copy thereof on the premises where such well is located. Use of water shall be discontinued forthwith on revocation of said permit and said well shall be capped or otherwise treated as required by order of the Council.

§2.540 Water Sales. It shall be unlawful to sell water from any private well, except by express permission of the City Council, or to use water for any purpose or purposes other than those specified in the permit granted therefore.

§2.541 Purpose.

(a) The regulation of private wells is intended to prevent waste, in unreasonable manner, of water from artesian wells, or use thereof which may in any way cause depletion or lowering of the head or reservoir thereof to the detriment or damage of other wells in the City of Beaverton.

(b) Any private well dug or drilled, or operated and maintained in violation of any provision of this ordinance or of the permit for such well, shall be a public nuisance, and the same shall be abated forthwith.

(c) Any person who shall dig, drill, or operate a private well in violation of this act, or of the permit for said well, shall be deemed to have committed a civil infraction subject to disposition under Title I, Chapter 7, of this Code.
§2.670 Franchises Continued. The franchises granted under Ordinance No. 121 of 1982 and pursuant to cable franchise agreements now in place are hereby continued; and for the term stated therein, each shall be governed by the terms thereby incorporated.

§2.671 Franchises Granted. The City of Beaverton grants pursuant to those documents to the parties named and to their successors and assigns the franchise right and authority to install, maintain, replace and operate a reception, transmission and distribution system for television in, over, on, and under the sidewalks, highways, streets, bridges, alleys, easements and rights-of-way as not existing, and belonging to the City; to erect thereon poles, with or without cross arms, transformers, amplifiers, underground conduits, manholes and other electronic television signal conductors and fixtures; to stretch wire and cables on, across and under all streets; and to maintain and use the same for the purpose of construction and operating a transmitting and distribution system for television.

§2.672 Construction Standards. All poles, cables, wires, antennas, conduits or appurtenances shall be constructed and erected in a workmanlike manner. The City shall not be held liable for any disturbance of Grantee's installation resulting from the altering, repairing or installation of streets or sewer or water installation. Grantee shall, at its own expense, move or relocate any of Grantee's installations at the request of the City whenever or wherever Grantee's installations are found by the City to interfere with the City's streets, street grade, sewer or water installations, or any proposed changes thereof, or extensions thereto. This Chapter shall not be construed as to deprive the City of any rights or privileges it now has, or may hereafter have, to regulate the use and control of its streets. The City must approve any plans before actual construction begins.

§2.673 Compliance with Codes. All construction of the Grantee, including installations, shall conform to the National Electric Safety Code, the statutes of the State of Michigan, and all Ordinances of the City. Grantee shall provide the City with a map designating the location of cable television facilities; said map shall be available for public examination and shall be corrected annually by Grantee to show all extensions and changes in said facilities.

§2.674 Rates and Charges. Grantee shall lay all cable, wire, and lines both on the public and private properties of the City at its own expense, but Grantee shall have the privilege of charging its customers both connection fees to bring the service to their properties and monthly fees for their continued use of the service. Maximum authorized rates and charges for services within the franchise area shall not be increased by the Grantee without prior approval of
§2.675 Bond. During the term this Chapter remains in effect, granted shall post with the City a bond to be approved as to form by the City Attorney in the sum of Five Thousand ($5,000.00) Dollars conditioned upon the faithful performance of the conditions and terms of the franchise and permit and providing a recovery on the bond in case of failure to perform the terms and conditions hereof.

§2.676 Indemnity and Insurance. Grantee shall indemnify and save the City harmless from any and all liability, damage or expense from accident or damage, either to itself, or to persons or property of others which may occur by reason of Grantee's activities in the cable television business. For this purpose and prior to commencing construction of any kind, grantee shall have in full force and effect and thereafter so maintain the same at all times, and file evidence thereof with the City Clerk, a good and sufficient policy of insurance with liability limits of Fifty Thousand ($50,000.00) Dollars for personal injury to each person, and Three Hundred Thousand ($300,000.00) Dollars for each accident. The said policy shall protect the City from and against any and all claims, actions, suits, liability, expense or damage of any kind or description which may accrue to or be suffered by the City or anyone by reason of the construction, maintenance or operation of Grantee's facilities, whether or not such claim is based upon the independent acts of the City.

§2.677 Compensation to City. Grantee shall pay to the City a reasonable percentage of the gross subscriber revenue received by Grantee for cable television service provided to subscribers within the limits of the City as now or hereafter constituted. Said payments shall be made quarterly, on or before the first day of the first, fourth, seven, and tenth month of each year. This fee shall be credited against any business or occupation tax or franchise fee or tax or other City tax required to be paid by Grantee. The legislative body of the City shall have the right to inspect the records of the Grantee at any reasonable time for the purpose of ascertaining accurately what the actual gross receipts of Grantee may have been for cable television service for the past years and/or for the present year.

§2.678 Safety Inspections. The City reserves the general right to see that the system of the Grantee is constructed and maintained in a safe condition. If the City at any time finds that an unsafe condition does exist, it may order Grantee to make necessary repairs forthwith, and if the Grantee shall fail to forthwith make the necessary repairs, the City may make them or have them made and collect all cost and expense thereof from the Grantee.

§2.679 Complaints and Records. The Grantee shall maintain records of all user and other complaints regarding the quality of service, equipment, malfunctions and similar matters. Grantee shall make every good faith effort to respond to all such complaints within seventy-two (72) hours after receipt of same, excluding Sundays and holidays. Written records of all such complaints and resolution of same shall be maintained by Grantee for a twelve (12) month period after origination of Same, and shall include notation of the reasons
why any response is made later than seventy-two (72) hour period. All such records shall be open to inspection by the City Council or its designee at any reasonable time.

§2.680 Acceptance by Grantee. This Chapter shall be null and void unless the Grantee shall within thirty (30) days after its effective date file with the City Clerk its written acceptance of all terms and conditions hereof. Within ninety (90) days of said acceptance Grantee shall commence construction of a coaxial cable system, or shall have applied to the Federal Communications Commission for issuance of a certificate of compliance as required by applicable FCC regulations for said system. Within one (1) year subsequent to receipt of said certificate of compliance Grantee shall complete construction of said system, including extension of energized trunk cable through out the franchised area and shall make system connections available to all potential customers within the franchise area, potential customers being determined consonant with economic feasibility. If said schedules are not met, the surety bond required by Section 2.675 may be forfeited at the discretion of the City Council.

§2.681 Term of Franchise. This franchise and the rights, privileges and authorities hereby granted shall take effect and be in full force after legal publication and in accordance with the Code of the City of Beaverton, and shall continue in full force and effect for a term of fifteen (15) years, provided that the Grantee shall accept this franchise in accordance with the provisions of Section 2.680. Any modification to Federal Communication Commission regulations governing municipal cable television franchising after the effective date hereof and required by applicable law to be incorporated herein shall be deemed a part hereof and shall be incorporated herein within one (1) year after Federal Communication Commission adoption of same.

§2.682 Revocation of Franchise. The City reserves the right to revoke this franchise and all rights and privileges of the Grantee hereunder in the event that the Grantee:

(a) substantially violates any provision of this franchise where such violations shall remain uncured for a period of thirty (30) days subsequent to receipt by Grantee of written notice of said violations, except where such violation is without fault or is the result of excusable neglect,

(b) fails substantially to maintain the system herein contemplated in accordance with applicable Federal Communications Commission operational and technical regulations.

Such revocation shall be by Ordinance duly adopted after sixty (60) days’ notice to the Grantee. In the event that such termination and cancellation depends upon a finding of fact, such finding of tact as made by an arbitrator selected from a list furnished by, and in accordance with the procedures of the American Arbitration Association, shall be conclusive; provided, however, that before this franchise may be revoked under this section, the Grantee must be
provided with an opportunity to be heard before the City Council.

SPECIAL USES

§5.160 Special Uses: Intent and Purpose. Special Use Standards. In order to make this Code a flexible zoning control and still afford protection of property values and orderly and compatible development of property within the City, the Planning Commission, in addition to its other functions, is authorized to approve the establishment of certain uses designated as Special Uses within the various zoning classifications set forth in the ordinance.

Such Special Uses have been selected because of the unique characteristic of the use which, in the particular zone involved, under certain physical circumstances and without proper controls and limitations, might cause it to be incompatible with the other uses permitted in such zoning district and accordingly detrimental thereto.

With this in mind, such Special uses are not permitted to be engaged in within the particular zone in which they are listed unless and until the Planning Commission is satisfied that the same, under the conditions, controls, limitations, circumstances and safeguards proposed therefore, and imposed by said Commission, would be compatible with the other uses expressly permitted within said district, with the natural environment and the capacities of public services and facilities affected by the land use; would not, in any manner, be detrimental or injurious to the use or development of adjacent properties to the occupants thereof or to the general neighborhood; would promote the public health, safety, morals and general welfare of the community; would encourage the use of lands in accordance with their character and adaptability; and that the standards required by the Commission for the allowance of such Special Use can and will, in its judgment, be met at all times by the applicant. Such Special Uses, once approved by the Planning Commission, will be sent to City Council for final approval.
The burden of proof of facts which might establish a right to a Special Use Permit under the foregoing standards shall be upon the applicant.

§5.161 Special Use Procedure:

(a) All applications for Special Use Permits shall be filed with the City Clerk and shall include all pertinent plans, specifications, and other data upon which the applicant intends to rely for a Special Use Permit.

(b) The Planning Commission shall, upon receipt of the application in proper form, schedule and hold a hearing upon the request preceded by notification to the applicant, the owner of the property proposed for consideration and the owners and occupants of all property within 300 feet of the boundary of the property to be proposed for consideration as shown by the latest assessment roll. If the name of an occupant is not known, the term "occupant" may be used in the notice. The notice shall be mailed or personally delivered and published in a local newspaper between five (5) and fifteen (15') days prior to the hearing. Notification need not be given to more than one (1) occupant of a structure, except that if a structure contains more than one (1) dwelling unit or spatial area owned or leased by different "individuals, partnership, businesses, or organizations, one occupant of each unit or spatial area shall receive notice. In the case of a single structure containing more than four (4) dwelling units or other distinct spatial areas owned or leased by different individuals, partnership, businesses, or organizations, notice may be given to the manager or owner of the structure who shall be requested to post the notice at the primary entrance to the structure.

(c) All notices shall describe the nature of the special land use request, state when and where the special land use request will be considered, and indicate when and where written comments will be received concerning the request.

(d) Following such hearing, said Commission shall either grant or deny a permit for such Special Use and shall state its reasons for its decision in the matter. All conditions, limitations and requirements upon which any such permit is granted shall be specified in detail by said Commission in its decision and shall be filed with the Zoning Enforcement Officer of the City. Any conditions, limitations or requirements upon which approval is based shall be reasonable and designed to protect natural resources, the health, safety and welfare of the land and the social and economic well-being of the owners and occupants of the land in question, of the area adjacent thereto and of the community as a whole; constitute a valid exercise of the police power and be related to the purposes which are effected by the proposed use or activity; be consistent
with the intent and purpose of the zoning ordinance; designed to insure compatibility with adjacent uses of land and the natural environment; and designed, to insure that public services and facilities affected by a proposed land use or activity will be capable of accommodating increased service and facility loads caused by the land use or activity.

(e) The Planning Commission shall have the right to limit the duration of a Special Use where the same is of a temporary nature and may reserve the right of annual review of compliance with the conditions and limitations imposed upon such use. Any use failing to comply with such conditions and limitations may be terminated by action of said Commission after a hearing upon application of any aggrieved party.

(f) The plot plan and specifications and all conditions, limitations and requirements imposed by the Commission shall be recorded with the City and shall be incorporated as a part of the special exception permit. Violations of any of these at any time shall cause revocation of said permit and such special use shall cease to be a lawful use.

(g) Any property which is the subject of a special use permit which has not been used for a period of six (6) months (without just cause being shown which is beyond the control of the owner and which is acceptable to the Planning Commission) for the purposes for which such special use was granted shall thereafter be required to be used for only permissible uses set forth in the particular zoning classification and the permit for such special use shall thereupon terminate.

(h) To insure compliance with the zoning ordinance and any conditions, limitations or requirements imposed by the Planning Commission as necessary to protect natural resources or the health, safety and welfare and the residents of the City and future users or inhabitants of the proposed project or project area, the Planning Commission may require a cash deposit, certified check or irrevocable bank letter of credit or surety bond covering the estimated cost of furnishing such condition, limitation or requirement conditioned upon the faithful completion of the required improvement. Such security shall be deposited with the City Clerk at the time of the issuance of the permit authorizing the commencement of such construction or activity. Where the improvement required will take more than six (6) months to be completed, the Planning Commission may authorize a rebate of any cash deposit in reasonable proportions to the ratio of the work completed as the work progresses.

(b) If the cost of repair or replacement of a non-conforming use or structure which has been destroyed by reason of windstorm, fire, explosion or any act of God or the public enemy exceeds fifty (50%) percent of the total replacement cost of the use or structure, such use or structure shall not be continued or rebuilt except in conformity with the provisions of this Code.

(c) If the non-conforming use of any land or structure shall terminate for a continuous period of time exceeding one year, such use shall not be re-established and any future use of land and structure shall be in conformity with this Code.

Junked, dismantled, or wrecked farm machinery may be stored or otherwise allowed to remain upon premises, during a period of repair, not to exceed an aggregate of 30 days, or for an additional period of 14 days for any such dismantled or partially dismantled automobile or farm machinery if proper permit is acquired according to the terms of this Chapter.

(e) "Building materials blight" includes the storage, outside of a completely enclosed building, for a period in excess of thirty (30) days, not including building materials stored on the site of property for which a valid building permit has been issued by the appropriate building official and where said materials are intended for use in connection with such construction. Levying or collecting such a special assessment shall not relieve a person offending against this Chapter from the penalty prescribed for violation of same.

(b) If, within the judgment of the Code Enforcement Officer the blighting condition is not an attractive nuisance posing and/or poses an immediate threat to the health and safety of individuals, but is nonetheless a blighting factor as described above, a civil infraction citation may issue according to Chapter 7 of this Code, and subject to a minimum $50.00 civil fine, for each day of continuing violation.

It shall be unlawful for any person to erect, install or maintain any electrically charged fence within the City, except that the Zoning Administrator may issue a permit for an electrically charged fence to retain animals upon proof that the fence will not be hazardous to life.

§5.502 Barbed Wire Fencing. It shall be unlawful for any person to erect, construct or maintain any barbed wire fencing within the City except;

(a) One course of barbed wire may be installed above the top line of a six (6) foot chain link fence located in a district zoned for industrial purposes or on property used for industrial purposes under a valid nonconforming use.

(b) Barbed wire fences which comply with the state statutes may be erected, constructed and maintained on premises zoned for agricultural uses.

§5.503 Fences Creating Safety Hazards Prohibited. It shall be unlawful for any person to erect, install, or maintain a fence which obscures clear view of traffic at intersections or driveways or which creates a safety hazard to pedestrians or vehicular traffic.

§5.504 Permits. It shall be unlawful for any person to install, erect, construct, relocate or alter a fence within the City without first obtaining a permit therefore from the City Zoning Administrator. No permit shall be issued if the City Zoning Administrator determines that the proposed fence does not meet the requirements of this Section. A sketch or design of the proposed fence including a description of materials to be used and specification of height shall be submitted with the application for a permit.

§5.505 Exemptions. This Section does not apply to fences in existence before the passage of this ordinance, except that on sale or transfer of the property on which a nonconforming fence is located, such fence shall be made to conform to the requirements of this ordinance, or removed within thirty (30) days of closing or transfer.

§5.506 Screening Requirements for Districts Abutting R-1. Screening shall be constructed and maintained along all adjoining boundaries with single family residentially zoned or used property. An obscuring screen shall be a berm, wall, landscaping, or other

Open spaces within such screening shall not exceed a one (1) foot square. Such screen shall be constructed in accordance with one (1) of a combination of the following:

(a) **Berm.** A mound of earth no less than six (6) feet high and contoured to a gradient of no less than three to one (3 to 1). The berm will be planned with grasses and/or shrubs and trees so as to be attractively landscaped.

(c) **Landscape Buffer.** A landscape buffer not less than six (6) feet in width consisting of not less than seventy-five (75%) percent evergreen material. Plant material shall be of a variety which shall maintain an "obscuring screen".

(d) **Planning Commission/City Council Modifications.** Any of the requirements of this Section may be waived or modified through Site Plan approval, provided the Planning Commission or City Council first makes a written finding that specifically identified characteristics of the site or site vicinity would make required fencing or screening unnecessary or ineffective, or where it would impair vision at a driveway or street intersection.

(e) **Zoning Board of Appeals.** The Zoning Board of Appeals may waive or modify these requirements at its sole discretion, if strict application of the requirements would constitute an undue hardship or burden upon property owners.

§5.507 **Construction materials.** All fences and walls should be constructed of standard materials, design and construction, and shall not constitute an undue eyesore.

§5.508 **Essential Retaining Walls.** Essential retaining walls which do not extend above the ground being retained by more than eighteen (18) inches are permitted in any yard of all zoning districts.

Title V - Land Use - Chapter 56 - Dangerous Structures

An ordinance to promote the health, safety and welfare of the people of the City of Beaverton by providing for the regulation, removal, or rehabilitation of dangerous structures within the City; to establish administrative requirements and to establish remedies and fix penalties for the violation thereof.

The City of Beaverton Ordains:

§ 5.601 Prohibition. It is unlawful for any owner or agent thereof to keep or maintain any structure or part thereof, which is a dangerous building as defined in Section 5.062.

§ 5.602 Definition. As used in this Ordinance "dangerous structure" means any building or structure, which has any of the following defects or is in any of the following conditions:

(a) Whenever any door, aisle, passageway, stairway or other means of exit does not conform to the approved fire code of the City, it shall be considered that such dwelling does not meet the requirements of this Ordinance.

(b) Whenever any portion has been damaged by fire, wind, flood, or by any other cause in such a manner that the structural strength or stability is appreciably less than it was before such catastrophe and is less than the minimum requirements of this Ordinance or any building code of the City for a new building or similar structure, purpose or location.

(c) Whenever any portion or member or appurtenance is likely to fall or to become detached or dislodged, or to collapse and thereby injure or damage property.

(d) Whenever any portion has settled to such an extent that walls or other structural portions have materially less resistance to winds than is required in the case of new construction by this Ordinance or the building code of the City.

(e) Whenever the building or structure or any part, because of dilapidation, deterioration, decay, faulty construction, or because of the removal or movement of some portion of the ground necessary for the purpose of supporting such building or portion thereof, or for other reason, is likely to partially or completely collapse, or some portion of the foundation or underpinning is likely to fall or give way.
(f) Whenever for any reason whatsoever the building or structure or any portion is manifestly unsafe for the purpose for which it is used.

(g) Whenever the building or structure has been so damaged by fire, wind or flood, or has become so dilapidated or deteriorated as to become an attractive nuisance to children who might play therein to their danger, or as to afford a harbor for vagrants, criminals or immoral persons, or as to enable persons to resort thereto for the purpose of committing a nuisance or unlawful or immoral acts.

(h) Whenever a building or structure used or intended to be used for dwelling purposes, because of dilapidations, decay, damage or age, faulty construction or arrangement or otherwise, is unsanitary or unfit for human habitation or is in a condition that is likely to cause sickness or disease, when so determined by the Central Michigan District Health Department or its successors, or is likely to cause injury to the health, safety or general welfare of those living within.

(i) Whenever any building becomes vacant, dilapidated and open at door or window, leaving the interior of the building exposed to the elements or accessible to entrance by trespassers.

§5.603 Notices

(a) Notwithstanding any other provision of this Ordinance, when the whole or any part of any building or structure is found to be in a dangerous or unsafe condition, the enforcing agency shall issue a notice of the dangerous and unsafe condition.

(b) Such notice shall be directed to the owner, agent, or lessee or party in interest in the building in whose name the property appears on the last local tax assessment records.

(c) The notice shall specify the time and place of a hearing on the condition of the building or structure at which time and place the person to whom the notice is directed shall have the opportunity to show cause why the building or structure should not be ordered to be demolished or otherwise made safe.

(d) The hearing officer shall be the City Manager or his/her appointee and shall serve at the pleasure of the City Council. The enforcing agency, if appropriate, shall file a copy of the notice of the dangerous and unsafe condition with the hearing officer.

(e) All notices shall be in writing and shall be served upon the person to whom they are directed personally, or in lieu of personal service, may be mailed by certified mail - return receipt requested, addressed to such owner or party...
§5.604 Findings and Order of Hearing Officer: Hearing: Costs

(a) The hearing officer shall take testimony of the enforcing agency, the owner of the property and any interested party. The hearing officer shall render his decision either closing the proceedings or ordering the building to be demolished or otherwise made safe.

(b) If it is determined by the hearing officer that the building or structure should be demolished or otherwise made safe, he shall so order, fixing a time in the order for the owner, agent or lessee to comply therewith.

(c) If the owner, agent or lessee fails to appear or neglects or refuses to comply with the order, the hearing officer shall file a report of his findings and a copy of his order with the City Council of the City and request that the necessary action be taken to demolish or otherwise make safe the building or structure. A copy of the findings and order of the hearing officer shall be served on the owner, agent or lessee in the manner prescribed in Section 5.603.

(d) The City Council shall fix a date for hearing, reviewing the finding and order of the hearing officer and shall give notice to the owner, agent or lessee in the manner prescribed in Section 5.603 of the time and place of the hearing. At the hearing, the owner, agent or lessee shall be given the opportunity to show cause why the City Council shall either approve, disapprove or modify the order for the demolition or making safe of the building or structure:

(e) The cost of the demolition or making the building safe shall be a lien against the real property and shall be reported to the assessing officer of the City who shall assess the cost against the property on which the building or structure is located.

(f) The owner or party in interest in whose name the property appears upon the last local tax assessment records shall be notified of the amount of such cost by first class mail at the address shown on the records. If he fails to pay the same within ninety (90) days after mailing by the assessor of the notice of the amount thereof, the assessor shall add the same to the next tax roll of the City and the same shall be collected in the same manner in all respects as provided by law for the collection of taxes by the City.

§5.605 Appeal. An owner aggrieved by any final decision or order of the City Council under Section 5.604 may appeal the decision or order to the circuit court by filing a petition for an order of
superintending control within twenty (20) days from the date of the decision.

§5.606 Severability. The provisions of this Ordinance are hereby declared to be severable. If any clause, section, subsection, paragraph or sentence is declared to be void or inoperable for any reason, it shall not affect any portion thereof.

§5.607 Repeal. All Ordinances or parts of Ordinances in conflict herewith are hereby repealed.

§5.608 Effective Date. This ordinance shall take effect thirty (30) days following date of publication as required by law. All Ordinances or part Ordinances in conflict with any of the provisions of this Ordinance are hereby repealed.

        Adopted by the City Council of the City of Beaverton this 21 day of June 2004.

(b) There shall be one (1) ingress and one (1) egress (minimum fifteen (15’) feet; maximum thirty (30’) feet) unless the physical conditions will permit more or less, as determined by the Zoning Administrator. The ingress and egress shall not be on residential streets. There shall be a proper sign denoting each entrance and exit.

(c) Waste Paper Containers. Waste paper containers shall be available and be spaced in such a fashion that one (1) covered container will service four (4) vehicles. Minimum capacity per container will be thirty (30) gallons bulk.
material. Containers shall be painted and properly identified and be of self-closing type.

(d) No drive-in restaurant licensee shall permit the sounding of horns or other devices that produce loud and harsh noises on the premises and to this end one or more plainly legible signs shall be posted notifying all patrons that horn blowing or sounding of other devices is not permitted on the premises to attract attention in order to obtain service.

(e) Noise and Other Disturbances by Patrons. No person on the premises of a drive-in restaurant shall race the motor of any motor vehicle, blow his horn, needlessly bring to a sudden stop or start any motor vehicle, block any traffic aisle, remain on the premise for purposes other than the purchasing and consumption of food products or beverages sold by such restaurant, or make or cause to be made any other loud unseemly noise, nuisances or disturbances whereby the quiet and good order of the premises or of the neighborhood is disturbed.

(f) Any violation of the provisions of this Chapter shall be deemed a civil infraction subject to disposition according to Title I, Chapter 7 of this Code.
§7.101 Licenses Required. No person shall engage, or be engaged, in the operation, conduct or carrying on of any trade, profession, business or privilege for which any license is required by any provision of this Code without first obtaining a license from the City in the manner provided for in this Chapter. Any person duly licensed on the effective date of this Code shall be deemed licensed hereunder for the balance of the current license year.

§7.102 Multiple Businesses. The granting of a license or permit to any person operating, conducting or carrying on any trade, profession, business or privilege which contains within itself, or is composed of, trades, professions, businesses or privileges which are recurred by this Code to be licensed, shall not relieve the person to whom such license or permit is granted from the necessity of securing individual licenses or permits for each other such trade, profession, business or privilege, except as specifically provided elsewhere in this Code.

§7.103 State Licensed Businesses. The fact that a license or permit has been granted to any person by the State of Michigan to engage in the operation, conduct or carrying on of any trade, profession, business or privilege shall not exempt such person from the necessity of securing a license or permit from the City if such license or permit is required by this Code.

§7.104 License Application. Unless otherwise provided in this Code, every person required to obtain a license from the City to engage in the operation, conduct or carrying on of any trade, profession, business, privilege shall make application for said license to the City Clerk upon forms provided by the City Clerk and shall state under oath or affirmation such facts, as may be required for, or be applicable to the granting of such license. No person shall make false statement or representation in connection with any application for a license under this Code.

§7.105 License Year. Except as otherwise herein, provided as to certain licenses, the license year shall begin July 1st of each year and shall terminate at midnight on June 30th of the following year. Original licenses shall be issued for the balance of the license year at the full license fee except that after January 1st, the fee for any license shall be one-half the full amount, if the full fee is $10.00 or more. License applications for license renewals shall be accepted and licenses issued for a period of fifteen (15) days prior to the annual expiration date. In all cases where the provisions of this Code permit the issuance of licenses for periods of less than one (1) year, the effective date of such licenses shall commence upon the date of issuance thereof.

§7.106 Conditions for Issuance. No license or permit required
by this Code shall be issued to any person who is required to have a license or permit from the State of Michigan, until such person shall submit evidence of such State license or permit and proof that all fees appertaining thereto have been paid. No license shall be granted to any applicant therefore until such applicant has complied with all of the provisions of this Code applicable to the trade, profession, business or privilege for which application for license is made, nor unless the applicant agrees in writing to permit inspection of the licensed premises at reasonable hours by authorized officers of the City.

§7.107 Where Certification Required. No license shall be granted where the certification of any officer of the City is required prior to the issuance thereof until such certification is made.

§7.108 Health Officer's Certificate. In all cases where the certification of the Gladwin County Public Health Officer is required prior to the issuance of any license by the City Clerk, such certification shall be based upon an actual inspection and a finding that the person making application and the premises in which he proposes to conduct or is conducting the trade, profession, business or privilege comply with all the sanitary requirements of the State of Michigan and of the City.

§7.109 Fire Chief's Certificate. In all cases where the certification of the Fire Chief is required prior to the issuance of any license by the City Clerk, such certification shall be based upon an actual inspection and a finding that the premises in which the person making application for such license proposes to conduct or is conducting the trade, profession, business or privilege comply with all the fire regulations of the State of Michigan and of the City.

§7.110 Police Chief's Certificate. In all cases where the certification of the Chief of Police is required prior to the issuance of any license by the City Clerk, such certification shall be based upon a finding that the person making application for such license is of good moral character. Any certification of the Chief of Police may also be satisfied by certification of the County Sheriff or City Marshall.

§7.111 Building Inspector's Certificate. In all cases where the carrying on of the trade, profession, business or privilege involves the use of any structure or land, a license therefore shall not be issued until the Building Inspector and/or Zoning Administrator shall certify that the proposed use is not prohibited by Title V of this Code, or other Zoning regulations of the City.

§7.112 Bonds. Where the provisions of this Code require that the applicant for any license or permit furnish a bond, such bond shall be furnished in an amount deemed adequate by the proper City officer, or where the amount thereof is specified in the schedule of fees and bonds set out in Chapter 72 or elsewhere in the Code, in the amount so required; then form or such bond shall be acceptable to the City Attorney. In lieu of a bond, an applicant for a license or permit may furnish one or more policies of insurance in the same amounts and providing the same protection as called for in any such
§7.113 Late Renewals. All fees for the renewal of any license which are not paid at the time said fees shall be due, shall be paid as "late fees" with an additional twenty-five (25%) percent of the license fee required for such licenses under the provisions of Chapter 72, for the first fifteen (15) days that such license fee remains unpaid and thereafter the license fee shall be that stipulated for such licenses under Chapter 72, plus fifty (50%) percent of such fee.

§7.114 Right to Issuance. If the application for any license is approved by the proper officers of the City, as provided in this Code, said license shall be granted and shall serve as a receipt for payment of the fee prescribed for such license.

§7.115 Fees - When Paid. The fee required by this Code for any license or permit shall be paid at the office of the issuing authority prescribed in this Code upon or before the granting of said license or permit.

§7.116 Exempt Persons. No license fee shall be required from any person exempt from such fee by State or Federal law. Such person shall comply with all other provisions of this Chapter. The City Clerk shall, in all such cases, issue to such persons licenses which are clearly marked as to said exemption and the reason therefore.

§7.117 Suspension or Revocation. Any license issued by the City may be suspended by the City Administrator for cause, and any permit issued by the City may be suspended or revoked by the issuing authority for cause. The licensee shall have the right to a hearing before the City Council on any such action of the City Administrator, provided a written request therefore is filed with the City Clerk within five (5) days after receipt of said notice of such suspension. The City Council may confirm such suspension or revoke or reinstate such license. The action taken by the City Council shall be final. Upon suspension or revocation of any license or permit, the fee thereof shall not be refunded.

§7.118 "Cause" Defined. The term "cause", as used in this Chapter, shall include the doing or omitting of any act, or permitting any condition to exist in connection with any trade, profession, business or privilege for which a license or permit is granted under the provisions of this Code, or upon any premises or facilities used in connection therewith, which act, omission or condition which is:

No licensee shall fail to carry any license issued in accordance with the provisions of this Chapter upon his person at all times when engaged in the operation, conduct or carrying on of any trade, profession, business or privilege for which the license was granted; except that where such trade, profession, business or privilege is operated, conducted or carried on at a fixed place or establishment, said license shall be exhibited at all times in some conspicuous place in his place of business. Every licensee shall produce his license for examination when applying for a renewal thereof or when requested to do so by any City police officer or by any person representing the issuing authority.

City of Beaverton

Ordinance 2008-1

The City of Beaverton ordains that Chapter 116 of the City Code is hereby added as follows:

§9.300 Purpose. The purpose of this article is to regulate signs and to minimize outdoor advertising within the city so as to protect public safety, health and welfare; minimize abundance and size of signs to reduce visual clutter, motorist distraction, and loss of sight distance; promote public convenience; preserve property values; support and complement land use objectives as set forth in the city master plan and this chapter; and enhance the aesthetic appearance and quality of life within the city. The standards contained herein are intended to be content neutral.

These objectives are accomplished by establishing the minimum amount of regulations necessary concerning the size, placement, construction, illumination, and other aspects of signs in the city so as to:

(a) Recognize that the proliferation of signs is unduly distracting to motorists and non-motorized travelers, reduces the effectiveness of signs directing and warning the public, causes confusion, reduces desired uniform traffic flow, and creates potential for accidents.

(b) Prevent signs that are potentially dangerous to the public due to structural deficiencies or disrepair.

(c) Reduce visual pollution and physical obstructions caused by a proliferation of signs which would diminish the city's image, property values and quality of life.

(d) Recognize that the principal intent of commercial signs, to meet the purpose of these standards and serve the public interest, should be for identification of an establishment on the premises, and not for advertising special events, brand names, or off-premises activities; alternative channels of advertising communication and media are available for advertising which do not create visual blight and compromise traffic safety.
(e) Enable the public to locate goods, services and facilities without excessive difficulty and confusion by restricting the number and placement of signs.

(f) Prevent placement of signs which will conceal or obscure signs of adjacent uses.

(g) Protect the public right to receive messages, especially noncommercial messages such as religious, political, economic, social, philosophical and other types of information protected by the First Amendment of the U.S. Constitution.

(h) The regulations and standards of this article are considered the minimum necessary to achieve a substantial government interest for public safety, aesthetics, protection of property values, and are intended to be content neutral.

(i) Prevent off-premises signs from conflicting with other allowed land uses.

(j) Maintain and improve the image of the city by encouraging signs of consistent size which are compatible with and complementary to related buildings and uses, and harmonious with their surroundings.

Nonconforming signs are those signs that do not comply with the size, placement, construction or other standards or regulations of this chapter, but were lawfully established prior to its adoption. Signs for which the Planning Commission has granted a variance are exempt and shall not be defined as nonconforming. It is the intent of this article to encourage eventual elimination of nonconforming signs in a timely manner. This objective is considered as much a subject of public health, safety and welfare as the prohibition of new signs in violation of this article. Therefore, the purpose of this article is to remove illegal nonconforming signs while avoiding any unreasonable invasion of established private property rights. A nonconforming sign may be continued and shall be maintained in good condition as described elsewhere in this article, however, the following alterations are regulated:

(a) A nonconforming sign shall not be structurally altered or repaired so as to prolong its useful life or so as to change its shape, size, type or design unless such change shall make the sign conforming.

(b) A nonconforming sign shall not be replaced by another non-conforming sign.

(c) A nonconforming sign shall not be reestablished after abandonment as defined in section 9.307, Dangerous, unsafe, abandoned, and illegally erected signs.

(d) A nonconforming sign must not be re-established after damage or destruction if the estimated expense of reconstruction exceeds 50 percent of the appraised replacement cost as determined by the building official/City Manager or if 50 percent or more of the face of the sign is damaged or destroyed.

§9.307 Dangerous, unsafe, abandoned, and illegally erected signs.

(a) Dangerous signs. Any sign constituting an immediate hazard to health or safety shall be deemed a nuisance and may be immediately removed by the city and the cost thereof charged against the owner of the property on which it was installed.

(b) Unsafe signs. Any sign that becomes insecure, in danger of falling, or otherwise unsafe but not considered an immediate danger by the building official/City Manager to the health or safety of the public shall be removed or repaired according to the process outlined in subsection (e) below.
(c) Abandoned signs. Any sign that advertises a business that has been discontinued for at least 90 days or that advertises a product or service that is no longer offered shall be deemed abandoned. Permanent signs applicable to a business temporarily suspended by a change in ownership or management shall not be deemed abandoned unless the structure remains vacant for at least six months. An abandoned sign shall be removed by the owner or lessee of the premises. If the owner or lessee fails to remove the sign, the City Manager shall initiate the process noted in subsection (e) below.

(d) Illegally erected signs. The City Manager shall order the removal of any sign erected illegally in violation of this article, according to the process outlined in subsection (e) below.

(e) Process for enforcing violations of this section. For violations of subsections (b) through (d), the City Manager shall send notice, by certified mail addressed to the owner of the property on which the sign is located. The notice shall describe the violation and allow seven days for removal. Should the sign not be removed or repaired within the time specified, the City Manager shall have the authority to remove the sign, and the property owner shall be liable for the cost thereof.

§9.308 Administration and appeals of sign ordinance standards.

(a) Generally. The regulations of this article shall be administered and enforced by City Manager or designee.

(b) Violations. It shall be unlawful for any person to erect, construct, enlarge, alter, repair, move, use or maintain any sign in the city, or cause or permit the same to be done, contrary to or in violation of any of the standards and regulations of this article. Any such violation, including the failure to remove a sign when directed under the authority of this article, shall constitute a misdemeanor punishable in accordance with this Code of Ordinances.

§9.309 Application. Applications for sign permits shall be made upon a form provided by the City for this purpose. The application shall contain the following information:

(1) Name, address, phone, and if available, fax and e-mail, of the person applying for the permit.

(2) Name, address, phone, and if available, fax and e-mail, of the person owning the parcel upon which the sign is proposed to be placed.

(3) Location of the building, structure, and parcel on which the sign is to be attached or erected.
(4) Position of the sign in relation to nearby buildings, structures, property lines, and existing or proposed rights-of-way.

(5) Two copies of the plans and specifications. The method of construction and/or attachment to a building, or in the ground, shall be explained in the plans and specifications.

(6) Name, address, phone, and if available, fax and e-mail of the person erecting the sign.

(7) The zoning district in which the sign is to be placed.

§9.310 Permit fees. Permit fees for signs shall be established by the City Council by resolution from time to time. The permit fees must relate to the cost of issuing the permit and may vary based on the size, type and height of the sign.

§9.311 False information. A person providing false information under this article shall be guilty of a misdemeanor.
